

# LifeBook® A6025 Notebook

*What has state-of-the-art multimedia and wireless technology, an industry-leading, wide 15.4 inch Color-Enhanced Crystal View display, high reliability, security options, and can be yours at a reasonable price? The Fujitsu LifeBook® A6025 notebook—featuring Fujitsu quality you can depend on and stylishly packaged for those who want it all.*

## BENEFITS

### Power

The LifeBook A6025 notebook was designed to make your move from that outdated PC desktop to a sleek powerful Fujitsu LifeBook a no-compromise decision. Its power saving and high speed Intel® Core® Duo and Intel® Pentium® Dual-Core Processor supports all productivity applications with ease at home, office or at college. This portable notebook can now work where you want—in your living room, bedroom or a coffee shop. Using your computer no longer has to turn you into a hermit.

### Style

Clean design is reflected throughout the LifeBook A6025 notebook's style, ergonomics, and technology. The bright Color Enhanced Crystal View LCD display with a wider viewing angle is 50% brighter, bringing graphics and movies to life. The full-size keyboard and integrated touchpad, with intelligent scroll button, seamlessly connects you to your computer. Besides authenticating, the fingerprint software also associates all of your passwords to a simple swipe of a finger. Forgetting your password is no longer a worry.

### Connect

Going wireless is easy. The integrated, tri-band, Intel Pro Wireless 3945ABG or Atheros® Super AG™ (802.11abg) wireless LAN modules feature fast data throughput speeds and easily connect to other industry standard wireless 802.11a/b/g access points. Working away from the office isn't so bad if you can easily access the Web while sitting on your sofa or connect to Wi-Fi® spot at the airport or on a campus. You can also connect to other data sources through a multitude of ports—five USB 2.0 ports and an IEEE 1394 port. The dedicated ExpressCard™, PC Card, and Memory Stick®/SD/xD slots make transferring images and data a snap. Your Bluetooth enabled Fujitsu LifeBook A6025 notebook connects with Bluetooth ready mice, keyboards, printers, headphones, speakers, and PDAs as well as other notebooks. Stay in control by synchronizing contact and calendar information between mobile devices and your notebook—up-to-date information is accessible everywhere.

### Practical

The Intel Graphics Media Accelerator 950 (Intel GMA 950) graphics core is an intelligent and responsive graphics engine built into the chipset that is on the motherboard. This integration provides incredible visual quality, faster graphics performance and flexible display options without the need for a separate graphics card. Dynamic Video Memory Technology (DVMT) 3.0 supports up to 224 MB of video memory; system memory is allocated where it is needed dynamically. The Intel GMA 950 graphics provides smooth video playback, native 16:9 format support for wide-screen flat panels, and motion compensation for flicker free DVD playback.

When enjoying DVDs, your headphones can deliver a surround-sound theater-like experience with the Dolby supported headphones feature. By reading and writing in many different DVD formats: Dual Layer DVD±R, DVD±RW, and DVD-RAM, the optional Dual-Layer Multi-Format DVD Writer puts the entire DVD world at your fingertips.

Fujitsu smart shock sensor technology protects your hard drive from accidental bumps that could otherwise destroy your valuable data. Cafes and coffee shops are now less threatening to your notebook; the spill resistant keyboard significantly increases your notebooks survivability when used around beverages.

### Quality and Reliability

The close interaction between Fujitsu design, manufacturing, and service engineers creates some of the highest quality products offered in the PC market. In a time when most PCs are assembled by third-party vendors, Fujitsu takes pride in its own world-class design and manufacturing capabilities.

## OVERVIEW

- 15.4" Wide, Color Enhanced Crystal View display—unique high contrast display that delivers brighter images and richer colors
- Hard Drive protected by Fujitsu smart shock sensor technology
- Standard Biometric fingerprint sensor for security and password management
- Fast Gigabit Ethernet LAN and tri-mode 802.11ABG Wireless
- Bluetooth on select configurations to communicate wirelessly with personal Bluetooth devices (PDA, headset, and cell phones)
- Dedicated media slots: MemoryStick/SD/xD card slot, ExpressCard card slot, and PCMCIA card slot
- Dolby Headphone support when viewing DVD Movies
- Standard spill resistant keyboard
- Fujitsu quality and reliability, among the highest in the industry

## Enterprise Sales:

## Consumer Sales (24/7):

1.800.FUJITSU

www.shopfujitsu.com

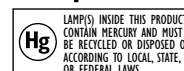

- 1) Preinstalled with a free 90-day trial version of Symantec's Norton Internet Security™. The 90-day trial version is activated upon user's acceptance of software license agreement. After 90 days, the user must purchase a subscription from Symantec to download latest virus definitions.
- 2) Actual memory will be approximately 3.25 GB due to OS limitations
- 3) One gigabyte (GB) = one billion bytes; accessible capacity will be less and actual capacity depends on the operating environment and formatting.
- 4) The internal modems on all mobile computers from Fujitsu notebooks of Fujitsu Computer Systems are only qualified for use with telephone systems in selected countries, including the United States and Canada. For a list of certified countries, please check [www.computers.us.fujitsu.com/modems](http://www.computers.us.fujitsu.com/modems).
- 5) Actual speeds over U.S. telephone lines vary, and are less than 56K due to current FCC regulations and line conditions.
- 6) Battery life estimates reflect the results of BAPCO MobileMark2005 Productivity Workloads performed upon systems with battery life setting enabled on Windows® XP operating system. Actual battery life will vary based on screen brightness, applications used, features selected, power management settings, battery conditioning, and other customer preferences. DVD/CD-RW, DVD Writer, LAN, wireless LAN or hard drive usage may also have a significant impact on battery life.
- 7) Service and warranty turnaround time may vary by country and product. International warranty valid only for products purchased in North, Central, and South America.
